CompTIA Retake Policy

In the event that you fail your first (1st) attempt to pass any CompTIA certification examination, CompTIA does not require any waiting period between the first (1st) and second (2nd) attempt to pass such examination. However, before your third (3rd) attempt or any subsequent attempt to pass such examination, you shall be required to wait for a period of at least fourteen (14) calendar days from the date of your last attempt to pass such examination.

- a. If a Candidate has passed an exam (or multiple exams) and achieved a certification, he/she cannot take the exam again, using the same exam code, without prior consent from CompTIA. For example:
 1. If a candidate has passed an exam (e.g. CompTIA Network+ N10-005) he/she will need to wait until a new series (e.g. N10-006) becomes available before attempting to recertify.
 2. If a candidate has passed multiple exams to achieve a certification (e.g. CompTIA A+ 220-701 & 220-702) he/she will need to wait until a new series (e.g. 220-801 & 220-802) becomes available before attempting to recertify.
- b. CompTIA beta examinations may only be taken one (1) time by each candidate.
- c. A test found to be in violation of the retake policy will be invalidated and the candidate may be subject to a suspension period. Repeat violators will be permanently banned from participation in the CompTIA Certification Program.
- d. Candidates must pay the exam price each time they attempt the exam. CompTIA does not offer any free re-tests or discounts on retakes.
