Advanced e-BRIDGE Next Technology enables the MFP to drive Toshiba's internally developed embedded solutions or those from a third party with ease.

Fast Dual-Scan Document Feeder handles up to 300 sheets at a time and seamlessly scans both sides of each page in a single pass to produce a max of 240 images per minute (IPM).

Auto Skew Correction ensures your scanned documents are reproduced accurately.

Fast First Copy Out Times include 6.4/6.4/5.4 seconds for full-color printing and 5.2/4.5/4.1 seconds (respectively) for black and white printing.

10.1" Tablet-Style Touch Screen works intuitively, helping you access instructions, functions, and commands with the swipe of the finger.

Banner Printing produces impressive signage as large as 12" x 47" using our unique AquaAce media.

Print Around eliminates printing bottlenecks by allowing other print jobs to go around a job that's held-up for a specific paper size, media type or color toner.

Saddle/Fold Capabilities offer saddle-stitch finishing and the option to fold without stapling.

e-BRIDGE Plus for USB lets you print PDF and JPG files straight from your USB drive and the MFP will scale documents to fit the available paper size if necessary.
Scan-to USB is great for capturing a file quickly when you're on the go.

Scan Preview allows you to review your scanned documents on the 10.1" tablet-style touch screen, even rotate and change pages prior to sending to file or email.

Fax Preview saves valuable resources by letting you view received faxes prior to printing them.

Notifications Feature takes the hassle out of checking for depleted supplies or maintenance needs.

Paper Volume Indicators on the front panel make it easy to see the paper sizes, types and levels in each cassette.
